Cozy is a leading supplier of gas heating equipment known for our commitment to product excellence. Designed to withstand the test of time, Cozy Heaters are engineered for long-term comfort and dependability.

Built using only the highest quality components and constructed in our Jeffersonville, IN factory. We take pride in each and every product we produce and are committed to providing comfortable living environments for single and multi-family homes, efficiency apartments, mobile homes, cottages, room additions, bedrooms, basements, garages, family rooms, or any application where space is at a premium.

Selecting a safe and reliable heater that suits your home or business is easier than you may think. We offer several solutions to fit any space, from wall furnaces to floor furnaces, and even a free-standing unit. Trust your heating needs to Cozy, the leader in zone heating equipment.
Cozy Challenger Floor Furnace occupies no room space and is easily installed between floor joists. It provides warm, even heat through the natural convection of circulating air and assures a high-volume air exchange, minimizing heat stratification.

Cozy Gravity Wall Furnaces mount on any inside or outside wall (single walls only), providing both circulated and radiant heat in an economical package. Available in single or dual wall models, each fits between standard 16" center stud space. Available in 25,000, 35,000, and 50,000 BTUs, Cozy Gravity Wall Furnaces provide ample heating for additions, as a replacement, or other hard to heat areas.

Cozy is a leading manufacturer of direct heating equipment known for our commitment to product Quality, Affordability, Efficiency and, now, improved SERVICEABILITY!

You Spoke. We Listened.
In addition to a more contemporary steel casing our Cozy Vented Console Heater has been redesigned to include a larger access door, making it our most SERVICEABLE vented console to date!

Cozy Direct-Vent Wall Furnace mounts on an outside wall and occupies minimal room space. The sealed combustion unit draws air in from the outside and exhausts to the outside through a concentric vent system. The telescoping vent assembly is included with unit, for standard 5" - 9" walls, saving time and money with installation. The louvered cabinet design maximizes airflow, providing uniform temperatures from floor to ceiling.

Hi-Efficient Direct-Vent Furnace by Cozy are 80%+ AFUE energy efficient. These units can be mounted easily on any inside* or outside wall and can be installed in below grade applications*. The 5" - 32" vent termination is included with unit.

*With Vent/Exhaust Extensions Kits
